

559-T12, 559-T4 and 1042 HC900 Operator Interfaces

Model Selection Guide

Instructions

Specify the model number for the desired model.
Extension number (xxxxxx - xx20) is the firmware revision and it must match the revision number of the HC900 Controller CPU to utilize all available features.

Description	Model Number
559 - T12 Operator Interface (Type 12 front panel)	559T12-0021
559 - T4 Operator Interface (Type 4X front panel)	559T04-0021
1042 Operator Interface with floppy disk drive	10420F-0021
1042 Operator Interface with ZIP drive	10420Z-0021

Notes:

- The 559-12, 559-T4 and 10420F Operator Interfaces include a 1.44M floppy disk drive, support for data archiving and a 50 foot length of RS 485 communication cable to connect the OI to the HC900 controller.

- A user's manual in English language is provided.

- The following items must be ordered separately if required:
